

13th November, 2020.

TO: ALL BIDDERS

Dear Sir/Madam,

ADDENDUM 1: CLARIFICATION

**TENDER FOR SUPPLY AND INSTALLATION OF DIESEL FILTRATION SYSTEM AT
BARINGO-SILALI GEOTHERMAL PROJET – GDC/INFRA/OT/023/2020-2021**

In response to bidder's request for clarification, GDC wishes to respond as follows;

Bidder's Question 1

According to particulars of appendix to instructions to tenders of clause 2.14.2 you have indicated that the tender security required is a 200,000 Kenya Shillings which is conflicting to what is written on page 24 of page 53 of the tender which requires 100,000 ksh for the tender security.

GDC Response

The tender security is **Ksh 100,000**.

Bidder's Question 2

Request for Extension of Tender Closing Date.

GDC Response

The tender closing date remains as stated in the tender i.e. **Thursday 19th November, 2020 at 2.00Pm**.

Bidder's Question 3

The Technical specification for the filter requirements on the tender refers to A Filter house sizing: 27/54 And Filter Inserts: 2xF 27/27 (page 42 of the tender documents). There are different filtration systems from other OEM's which do not necessarily have the same filter housing and filter inserts sizes but equally meeting expectations and in some cases exceeding expectation. We are therefore requesting that you consider alternative solutions that meet your basic requirements without necessarily insisting on specifications that lock-out other solutions. Your consideration on the matter is highly appreciated.

GDC Response

The minimum technical specifications are as stipulated in the tender document.

N/B: All other instructions remain unchanged.

Yours faithfully,

DORIS KYAKA
MANAGER, SUPPLY CHAIN
FOR: GEOTHERMAL DEVELOPMENT COMPANY
