

16th October, 2020.

REF: GDC/MSD/005/20-21/pk-fk

TO: ALL BIDDERS

Dear Sirs,

ADDENDUM 3: CLARIFICATION/EXTENSION OF CLOSING DATE

**RE: TENDER FOR SUPPLY AND DELIVERY OF PDC BITS FOR BARINGO-SILALI
GEOHERMAL PROJECT - GDC/DO/OT/014/2020-2021.**

In response to bidder's request for clarification, GDC wishes to provide the following response;

S.N	BIDDER'S QUESTION	GDC'S RESPONSE
1.	The technical specifications state the requirement for IADC S223/M223 but also the need for backup cutters in the additional features. IADC M223 / S223 bits are usually light set and do not have backup cutters and in our experience may not be suitable for hard/abrasive formations. Kindly confirm if you specifically require IADC M223/S223	From our experience drilling in the North Rift Field, the 8.5" hole section formation varies between medium to med-soft. So we specifically require IADC M223/S223.
2.	Kindly provide a 2 weeks extension to the submission deadline to allow us complete the tender and obtain some critical documentation.	The closing date is extended from 21 st October 2020 at 2.00pm to 27th October 2020 at 2.00 pm.

NB/ All other requirements/instructions remain unchanged.

Yours Faithfully,

**PATRICK KAPTO
DEPUTY MANAGER, PROCUREMENT
FOR: GEOTHERMAL DEVELOPMENT COMPANY**
