4.	Each tyre size has different technical specifications. Please advise if we can give the different specifications for each tyre according to the size.	The bidder shall provide the technical specifications of his tyre. This response requirement shall therefore not be tied to "compliance" but to the specifications provided by the bidder. The bidder shall provide supporting documentation such as catalogues and brochures. Bidders should highlight the relevant specifications met on the supplied catalogues and brochures.
5.	The clause in page 31 of the tender document, Number 7, "Certified product license from Kenya Bureau of Standards (KEBS) for Tyres or batteries quoted for. GDC shall verify the authenticity of such documents with relevant authority". The requirement is usually given to manufacturers and the fact that we don't have tyre manufacturers in Kenya makes it hard to meet this requirement especially for AGPO registered companies. We therefore request for a review and amendment of the clause.	Refer to GDC response in (3) above.

All other instructions remain unchanged as stipulated in the tender document.
